Appendix 1 Guidance on risk assessment of welfare issues

A pupil welfare risk assessment is a careful examination of what could cause harm to pupil welfare and a consideration of appropriate control measures, so that you can weigh up whether the School has taken adequate precautions or should take additional steps to prevent the risk of harm.

The risk assessment process is not intended to create huge amounts of paperwork and neither should it be viewed as purely a tick box or paper exercise. Its purpose is to identify sensible measures to control real risks - those that are most likely to occur and / or will cause the most harm if they do.

When thinking about your risk assessment in this context, remember:

- a welfare issue is anything that may harm a pupil; to include cyber-bullying, abuse and the risk of radicalisation and extremism
- the risk is the chance that a pupil could be harmed, together with an indication of how serious the harm could be if it occurs.

Step 1: Identify the issue

First you need to work out how pupils could be harmed. This will generally be set out in the concern raised about a pupil's welfare.

Step 2: Decide who might be harmed and how

Identify individual pupils or groups of pupils who might be harmed and how they might be harmed by the concern raised.

Step 3: Evaluate the risks and decide on precautions

Decide what to do about the risks, how information should be shared and follow any procedures regarding the internal authorisation of suggested precautions.

Compare what you currently do with what is required by law, DfE guidance or is accepted good practice. If there is a difference, list what needs to be done to protect the pupil's welfare. Where appropriate take into account any special requirements or protected characteristics.

Step 4: Record your findings and implement them

Make a written record of your significant findings - the concern, the issues, how pupil(s) might be harmed and what arrangements the School has in place to control those risks.

There is no prescribed format for this record but any record produced should be simple and focussed on control measures and the steps the School proposes to take to manage the risk.

Step 5: Review your risk assessment and update, if necessary

Assessment should be a dynamic process which analyses and responds to the changing nature and level of need and/or risk. You should review what you are doing for the pupils identified and across the School generally and monitor and review the efficacy and / or the outcome of the measures you have put in place on a regular basis, or as required.
